Count up how many of each letter you marked, and you're ready to Discover Your SoulPrint!

<b>LETTER</b>	<b>SPIRITUAL REALM</b>	<b>SOULPRINT</b>
<b>A</b>	<i>Angelic</i>	<i>Angel Soul</i>
<b>B</b>	<i>Faery</i>	<i>Fae Soul</i>
<b>C</b>	<i>Galactic</i>	<i>ET Soul</i>
<b>D</b>	<i>Mystical Human</i>	<i>Wise One Soul</i>

**If you marked 4 or more of one letter,** you are definitely from that realm and have that SoulPrint as your energetic essence.

**If you marked 3 or more of two different letters** (for example, 3 A's and 4 B's), you are a Blended Soul. The letter you marked the most is your Primary Realm, and the other is your Secondary Realm. If they're marked equally, you are a pretty balanced Blend.

If you found your letters were "scattered," you may have some spiritual interference happening, or some of your Soul energy is being suppressed. But all will be well!

You may just need extra guidance to get clear on your SoulPrint. Bring your questions to the *Unlocking Ascension* Facebook group, and we'll help you clarify your Realm and SoulPrint energies.

### **SoulPrint Basics**

**Angel Souls** are actual incarnated Angels. There are many types of Angels, but those who choose to embody are ones who really want to understand the human condition "from the inside out." Consequently, they often take on very challenging circumstances in their lifetimes. They have a certain nobility about them, and a deep desire to heal and serve humanity.

**Fae Souls** are nature spirits or mythical creatures (such as Dragons or Unicorns) who have taken on human form to be able to more directly influence humans in healing the Earth. They are "rebels with a cause," often with a mischievous streak, and can have issues managing emotions and finances.

**ET Souls** are a very diverse group, coming in from other dimensions as well as other planets or galaxies in our Universe. They are deeply committed to raising human consciousness, and they have many approaches to doing so. Many ET Souls are drawn to elevating the human

mind, helping humanity release negative thoughtforms and outdated belief systems. Many Reiki Masters, and meditation or New Thought teachers, are fully or partially ET Souls.

**Wise One Souls** are advanced humans who have spent millenia honing magical skills, mystical practices, and esoteric knowledge. Of all the SoulPrints, they are most at home in the human body and human culture, and they've often been "called in" from their non-embodied realm to revive ancient wisdom and adapt it to new times as part of human evolution.
